

Popular Car Canopies

When you're tucking your baby in at night, you want her to be warm, cozy and safe from harm. That's why so many car buffs use car canopies for protection from the elements.

A car canopy is a great way to cover your vehicle, when you just don't have the room or the money to build a fixed structure. Car canopies offer protection from the elements, including rain, snow, ice and harmful UV rays, all of which can cause irreversible damage to your vehicle. If you're looking for a cost-effective way to shelter your car from the elements, consider a car canopy.

Here are some trusted products that will do the job and meet your budget:

Ace Enclosed Canopy for Cars Measuring a generous 18' x 20', this canopy is ideal for cars or boats. It is equipped with a super heavy-duty tarp cover and walls, all providing UV protection. The heavy-duty ball bungee cords will last from season to season, and the edges of the cover and walls are stitched with a double flap, and then heat-sealed. This enclosed canopy is super heat resistant, weather resistant and 100 percent waterproof. No tools are required for set up. The heavy-duty 18-gauge galvanized steel poles are 1-3/8" in diameter and assemble virtually hassle-free. Choose a white or silver canopy. Each comes with a five-year warranty against erosion for both the frame and top cover. The Ace Enclosed Canopy for Cars is priced at \$700. Check acecanopy.com for more details.

Ace Enclosed Car Canopy This smaller version measures 10' x 10', still providing ample room for single-vehicle parking. Like the larger version, this car canopy is made with super heavy-duty tarp cover and walls with full UV protection and super heat resistant. It is also weather resistant and waterproof. Other features include heavy-duty ball bungee cords and 1-3/8" diameter heavy-duty 17-gauge galvanized steel poles. Again, these car canopies can be assembled without tools, are guarantee for five years, and are available in your choice of silver or white. The price of the Ace 10' x 10' Enclosed Car Canopy is \$300. Find out more at acecanopy.com.

Gothic Arch Canopy At 10' x 20', these canopies are ideal for protection cars, golf carts, trailers, ATVs and snowmobiles, and can also provide the perfect shelter for pool decks and garden parties. The curved roofline of the Gothic Arch Canopy gives this model a more distinguished appearance than other design options. The white cover with drawstring ends creates a neat, clean look. Like other models, this canopy is easy to assemble with no tools required. You can purchase the Gothic Arch Canopy for \$299. Order online at store.all-garage.com.

Hercules Canopy Multi-vehicle families love the aptly named Hercules Canopy for it's massive size. At a whopping 18' x 27', it's like having a double car garage. This very strong unit boasts a two-inch powder coated frame, with plastic footpads to protect the surface of the unit that it is placed on. These pads may also be used for mounting the Hercules Canopy on hard surfaces such as concrete. The Hercules Canopy is priced at \$545. See screen-house.com to order.

King Canopy Silver Car Canopy This 11' x 27' canopy provides optimal protection. The tough cover is in step with metal concrete base plates and screw-in ground anchors, creating a heavy-duty garage-like structure. See screen-house.com or call 1-800-922-4760 to order. The King Canopy Silver Car Canopy is listed at \$659.99.

Your vehicle is probably one of the largest investments you've ever made; so don't take chances with your vehicle storage. Protect your baby from sun, wind, rain and ice, and protect your investment.
